

YOUR PROVEN ROADMAP TO SCALABLE AI SUCCESS

AI BLUEPRINT

nnit.com

AI IS NO LONGER AN EXPERIMENT, IT’S YOUR COMPETITIVE EDGE.

Today, 7 out of 10 AI pilots never scale. Often due to gaps in data quality, governance, and ROI clarity.

Our **AI Readiness Navigator** helps you cut through that risk. Together, we'll define a practical, secure, and scalable roadmap tailored to your needs.

Three paths to production-ready AI

- **Buy**
Launch fast with our validated accelerators – no internal build required.
- **Build**
Own your IP, secure your data and scale at your pace.
- **Blend**
Combine our ready-made building blocks with your domain expertise for the quickest route to value.

- Why Build with NNIT**
- GxP-validated from day one
 - Tailored to your terminology & workflows
 - Independent of hyperscale lock-ins
 - Designed for easy integration and future scale
 - Transfers know-how to your in-house team

Fixed-price entry: from €25.000 (includes discovery, design and pilot deployment).

Five critical questions we answer together
Rate each from 1-5: Low → High priority and/or write down your thoughts - no right or wrong answers.

1. Which processes could AI improve today?

OUR PRODUCTION-READY AI PACKAGES

Plan

- **AI Readiness Assessment**
3-week assessment, roadmap & compliance gap check.

Build

- **Establish your Agentic AI Foundation**
Core engine for regulated document harmonization, search and project accelerators.
- **Data-Products**
GxP-validated data products for secure, production-grade AI deployments.

Run & Govern

- **AI Training & Governance Suite**
CoE playbook, executive awareness session and role-based training.
- **Trusted AI Compliance Pack**
EU AI Act risk scoring, CSV templates, validation protocol.

Every package includes

- Fixed scope & price
- Pre-validated artefacts
- Clear upgrade path to full production
